

HEX Systems in conjunction with **Mount Barker and District Rifle Club** are pleased to announce that there will be a demonstration of the new HEXTA-002 electronic target system at Mount Barker Rifle Range on Saturday 23rd February 2013.

We welcome all members of South Australian clubs and surrounding states to attend. There is currently considerable interest in the HEXTA targets in South Australia, and this is a great opportunity to see what all the fuss is about!

The demonstration will commence at 1 pm. Participants are encouraged to bring their rifles for a trial shoot on the targets. During the afternoon there will be an excursion to the butts to inspect the targets at close hand. HEX Systems representatives, including Dmitri Kazakov, the designer of the system, will be on hand to demonstrate the system and answer any questions. And of course there will be an opportunity to refresh at the clubhouse afterwards!

Additionally, **No.2 D.R.A. will be holding their Open Prize Meeting at Mount Barker on Sunday 24th February**, the day after the demonstration. Five HEXTA targets will be in operation for the event. Participants who would like to compete in the OPM are welcome to stay overnight at the range.

Please register your interest by contacting **Brian Brittain** at the Mount Barker club. RSVP 18th February 2013.

We hope to see you there!
