Stage 2 of the Dave Lindner Trophy was shot at 1,000 yards and proved to be a good day out for some members and a difficult day for others. The morning saw a hive of activity as members of the State FT/R team erected their electronic target so that they could test their skills at 1,000 yards while our club members set the flags and installed three targets of our own. The wind was consistent from the north east at an average of 10 miles per hour but sudden drop offs caught a lot of the members, with the exception of just a small few that went on to post very respectable scores. One of these was the Club Captain who posted 97.10 beating John Hoerisch by two points. The Captain also appeared to humble as he announced himself to be the handicap winner and received the applause from the other 16 members that competed on the day. Next week is to be a working bee in the morning with work being scheduled to fill the shot holes in the back stop, possibly some repairs to boundary fencing, and a major clean of the clubrooms. Members that wish to help are asked to get to the range early. A non-championship 300 yard zero is scheduled for the afternoon.
