Smithson S	53.02	50.01	103.03	9.00	DNR	188.89%	11.00	112.00

A small but motivated field contested the Captain's trophy on Saturday, at the longest range and in very difficult conditions. This was reflected in the lower scores across the board, and no-one scored within their limit. This led to a situation which occurs rarely, where, instead of calculating a winner using a percentage of handicap, the leader is determined by adding the score recorded to the handicap, and then adjust the total so that T/R's score can be measured against F Class. This did cause a little confusion, and the winner was incorrectly called after the event as Peter Dayman. Unfortunately for Peter, Fred Guyatt actually achieved a higher score on the day (after the adjustments), and is the Williams Trophy winner. The discussion paper setting out the method, is posted on the Members Only page of the website. Next week: Lindner Stage 1 at 500 yards.
